

Stalgen[®]

designed hardwood flooring

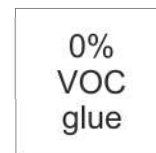

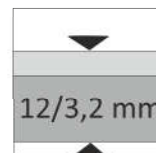

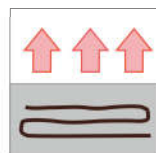

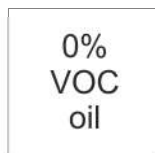

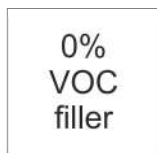

Stalgen presents different hardwood products manufactured by company Amber Wood Ltd. Main products are multilayer floor boards, multilayer parquet, solid floor boards and solid parquet as well as skirting boards. Company Amber Wood Ltd is located in Latvia and well known in Baltic states as a precious wood flooring plant rich in traditions. The production process includes the full wood processing cycle, starting from purchasing and sawing of saw logs. A wide range of technological opportunities provides us the possibility to process different kinds of surfaces according to customer's wishes. 80% of the products are delivered to Scandinavian and Western European countries. Eco-friendly and sustainable production process is our main goal. Ready made products as well as all components are in compliance with highest environmental quality requirements. The conformity to highest environmental quality requirements of the Stalgen trade mark products is the success key factor in Scandinavian countries and European Union.

Why Stalgen?

Engineered floor boards are suitable for installation in the premises with variable temperature and air moisture content as well as on all other common subfloors indoors. One of the most popular applications is to install the floor boards directly on the heated floors (electric or water pipe heated underfloor). Engineered construction of multilayer floor board entails increased dimensional stability during all lifetime. The density of plywood and top layer are the same - 700 kg/m³. Thermal conductivity $\lambda=0,17$ W/(mK) for oak and plywood guarantee smooth and efficient heat flow. It makes the heating more cost effective. Fragmented plywood underlay and core-layer distress the floor board.

- ✓ Stiro free filler
- ✓ Ultra low formaldehyde birch plywood
- ✓ Hotmelt polyurethane glue
- ✓ Water resistant joint
- ✓ 3,2 mm and 4,5 mm wear layer
- ✓ Wear layer and plywood density 700 kg/m³
- ✓ Excellent thermal conductivity 0,17 W/(mK)
- ✓ Fragmented plywood underlay for 16/4,5 mm
- ✓ Grooved plywood underlay for 12/3,2 mm
- ✓ Easy installation
- ✓ Increased dimensional stability
- ✓ Structured surface
- ✓ Surface coating with natural oil or wax oil

12 mm multilayer floor boards

Wood specie	oak
Width	165 / 185 / 260 mm
Thickness	12 mm
Top layer	3,2 mm
Length	600-1400 / 1400-2200 / 2200-3000 mm
Surface	structured / medium structured / deep structured
Coating	hardwax oil / natural oil

16 mm multilayer floor boards

Wood specie	oak
Width	210 / 240 / 300 mm
Thickness	16 mm
Top layer	4,5 mm
Length	600-1400 / 1400-2200 / 2200-3000 mm
Surface	structured / medium structured / deep structured
Coating	hardwax oil / natural oil

12 mm multilayer parquet

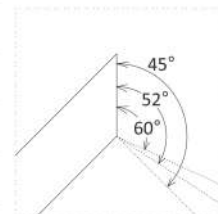

Wood specie	oak
Width	135 mm
Thickness	12 mm
Top layer	3,0 mm
Length	540 / 675 / 810
Surface	structured / medium structured / deep structured
Coating	hardwax oil / natural oil

"chevron" parquet

Wood specie	oak	
Construction	multilayer	solid
Thickness	12/3,2 mm	16 mm
Width	135 mm	68 mm
Angle	45° / 52° / 60°	
Surface	structured / medium brushed / deep brushed	
Coating	unfinished / hardwax oil / natural oil	

traditional solid parquet

Wood specie	oak
Thickness	16 mm
Width	68 mm
Length	204 / 272 / 340 / 408 / 476 mm
Surface	planed
Optional	chevron / tumbled surface

skirting boards

Wood specie	oak	ash
Height	50 mm / 70 mm / 100 mm	50 mm / 65 mm
Thickness	16 mm	
Surface	sanded / structured	
Surface	unfinished / hardwax oil / natural oil
